

to be of substantially different ages and weights. Here is Halbig's comparison:

The differences in these images makes me conclude that these are two different people. The shape, height and alignment of the eyebrows is different. Also the tops of the ears don't align and the mouth is misaligned despite the fact that person 2 is smiling. The length of the skull above the brows is greater in person 1, as is the distance between the nose and lips.

Figure 2- Halbig's comparison of the Madison Court room Pozner reverses the image on the right showing comparing Pozners left ear with his right hear which has a very distinctive feature of abnormally protruding from the head. The ears are substantially different. The eyebrows and the foreheads appear substantially different.

Here is the original image that I believe that Halbig is using.

Figure 3- An image of Leonard Pozner which is reversed by Halbig's associate to do a face comparison.

Halbig points out the distinctive ear as the main noticeable feature that indicates that the two people are different. However, a facial recognition match of the courtroom Pozner with the Sandy Hook Pozner indicates that they are likely the same person. This shows the flaws in the facial recognition program itself.

Figure 5 – Facial Recognition Technology indicates a high degree of probability that the courtroom Pozner and the photograph of Pozner from December of 2015 are the same person.

## 2. The Sandy Hook Pozner

There are other photographs of the Sandy Hook Pozner, which were taken around the time of the purported shooting on December 14, 2012. Notice the difference in their apparent ages and weights, where the Madison Pozner of May 28, 2019, appears substantially younger and lighter than the Pozner from the date of the shooting. 7 years have passed since the day of the shooting and the court appearance, the Pozner character should be 7 years older. See Figures 6-10 below.

Figure 7 – The photograph was first found by TinEye reverse image search on December 23<sup>rd</sup> 2012 just 9 days after the Sandy Hook shooting.

Now look at the images from the court hearing. Pozner appears to be older in the image from 2012 than he is at the court hearing.

Figure 8 – Age of Pozners from the Sandy Hook Shooting December 12<sup>th</sup> 2012 (Left) versus May 29<sup>th</sup> 2019 (Right). According to the traffic ticket Pozner received his birthdate is.

10/11/1967. This means that Pozner would have been 46 years old on December 12<sup>th</sup> 2012. The man in the courtroom would be 6.5 years older making him 52 years old at the time of the testimony. This is inconsistent with the laws of nature.

Figure 9 – Facial Comparison Technology does indicate that the man at the Sandy Hook Shooting is the same man who provided testimony in court as Pozner. However it is clear to the naked eye that they are different people.

Figure 10 – Another photo of Pozner at the scene of the shooting.

On December 13<sup>th</sup> 2023 Wolfgang Halbig provided an affidavit to the courts that makes the following statements:

5. I, with this, certify that while attending my hearing in courtroom 1b with Judge Josalyn Jones, Assistant State Attorney Chambers, and my Attorney Ms. Umansky, for my case of the State of Florida, Plaintiff, vs. Wolfgang Halbig, Defendant/Petitioner, Case Nos: 2020-cf-000224-axxxxx, and 2020-mm-001628-axxx-xx, a person appeared in in the Circuit Court of the Fifth Judicial Circuit, 550 West Main Street, Tavares, Florida 32778, in and for Lake County, Florida on August 1, 2023, at 1:30 PM to testify that he was Leonard Posner and the only Lenny Posner who had lost his son in the shooting alleged to have occurred on December 14, 2012, at the Sandy Hook Elementary School in New Town, Connecticut.
6. I later learned of a police traffic stop on 09/21/2023 for speeding by the Orange County, Florida, Sheriff's Office. I obtained a copy of the citing Officer's body cam footage on 10/24/2023 using public records request #23-22128. The Officer's body cam footage depicts the same Leonard Pozner who testified at my August 1, 2023, court hearing.
7. The person who represented himself as Leonard Pozner during my court proceeding is depicted in exhibit A, the body cam photograph attached to this affidavit.
8. My opinion as a former Florida Highway Patrol Officer and US Customs Agent is that the person claiming to be Leonard Pozner in my Florida courtroom is NOT the same person depicted in the business suit attached to this affidavit, and the person depicted in casual clothing is likely not the person depicted in the business suit.

Figures 11 and 12 (Above) – Halbig's statements from his affidavit.

The following image was extracted from the bodycam video of the traffic stop that Halbig acquired in his public record request #23-22128.

Figure 14 – The traffic ticket issued to Leonard Pozner

Figure 15 – Facial recognition technology shows a high probability that the person who testified in court is the same person who received the traffic ticket. Note that the probability of these two people being the same person is only high and not very high as other comparisons normally indicate meaning that they could possibly be dopplegangers. There are other indicators that there are multiple people playing the role of Leonard Pozner. Facial recognition technology helps shed light on the situation.

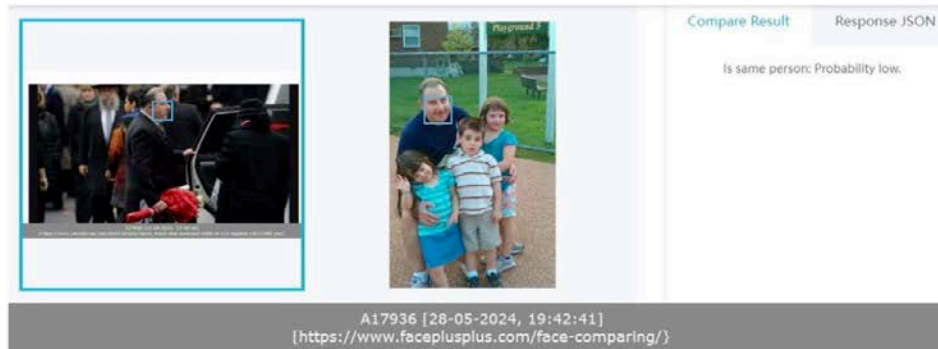

Figure 16 – Facial Recognition shows a low probability that the man who attended the funeral is the same man in the photos when Noah Pozner was approximately 4 years old. In this photo Noah Pozner appears to be approximately 5 years old. This photo would have been taken when Pozner was 45 years old at the time of the photo. He looks significantly younger at this time.

On January 3<sup>rd</sup> 2021 a 60 Minutes overtime special was posted to the following link on Youtube. [https://www.youtube.com/watch?v=XkR\\_5dCEIzU](https://www.youtube.com/watch?v=XkR_5dCEIzU)

At 1:41 in the video a man who identifies himself as Leonard Pozner presents himself to the public as a victim of online harassment.

Figure 17 – The 60 minutes character that represented himself to the public as Leonard Pozner.

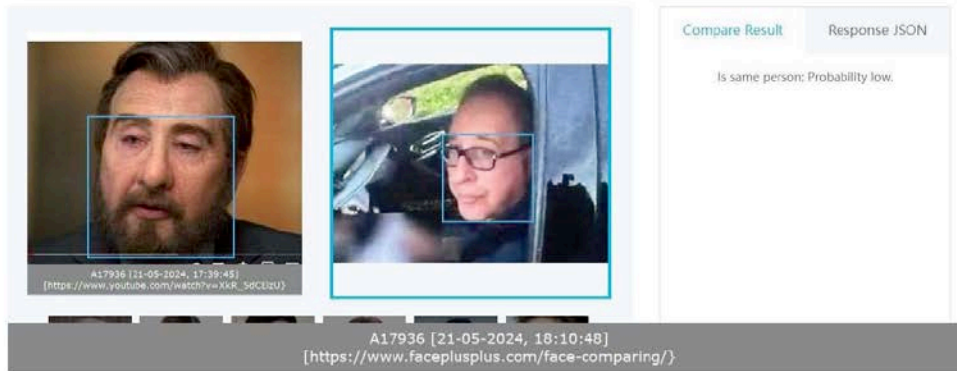

Figure 18 – The character on the 60 minutes special is a very low probability match to the driver of the vehicle who received the traffic ticket. Again Poxner is a public figure, why conceal his face?

The investigator has analyzed the photo of Kazu Hiro with the Leonard Pozner photo above and finds that the image does not present any obvious flaws or touchups and therefore the investigator believes it to be authentic.

Figure 34- The photo of Kazu Hiro and the fake Leonard Pozner appears to be authentic.

Why would a man (Pozner) who is willing to allow a spread in People magazine and considers himself a celebrity need to have his face altered for a 60 minutes special? I find it highly suspicious that whoever this character is would need to take such drastic measures to conceal his identity.

Conclusions - Wolfgang Halbig appears to be correct that the Sandy Hook Pozner and the Madison Pozner are not the same person but probably wrong to think that the FL Pozner was yet a third impostor. Based upon my research, there are more than one person claiming to be "Leonard Pozner", which leads me to agree with Dr. Fetzer that attorneys in these cases may have suborned perjury by using an impostor witness.

It is also my opinion that photographs of Noah Pozner are actually Michael Vabner and his sister Danielle Vabner-Rogus at a younger age with perhaps a relative.

Sincerely,

Brian Davidson
